Facts about GXS

GXS is a global provider of B2B e-commerce and integration solutions for 30,000 customers, including more than 70 percent of the Fortune 500. Companies in the retail, consumer products, financial services, manufacturing, high tech, automotive and other industries leverage services on GXS' cloud computing-based platform, GXS Trading Grid[®], to extend supply chain networks, optimize product launches, automate warehouse receiving, manage electronic payments and gain supply chain visibility.

Corporate

- GXS is rated as an industry leader in Forrester's [B2B Service Provider Wave](#) (Forrester Research: The Forrester Wave: B2B Service Providers, Q409) and as a leader in [Gartner's Integration Services Provider Magic Quadrant](#) (Gartner: Magic Quadrant for Integration Service Providers, November 2009).
- GXS Trading Grid[®] processes approximately eight billion electronic transactions per year.
- GXS manages approximately six million trading partner relationships.
- GXS has [strategic global alliances](#) with Accenture, Microsoft, Software AG and Verizon Business.
- GXS was named to the [2009 InformationWeek 500](#), a listing of the most innovative business technology organizations of which only the top 250 companies are ranked. GXS was named the 151st company in the ranking.

Global Presence

- Headquartered in Gaithersburg, Md., GXS has global reach with 1,800 employees in more than 20 countries.
- Approximately 60 percent of GXS' business is from outside the United States.
- GXS' customers are represented in 50 countries worldwide.
- GXS' primary data centers are located in the United States and the Netherlands with a collocated data center in Hong Kong supporting Asia Pacific customers.
- GXS and/or its partners provide comprehensive technical support in 20 languages including Chinese, French, Portuguese and Hindi.

Platform and Services

At the core of GXS services is [GXS Trading Grid[®]](#), GXS' global cloud computing-based integration services platform. At the most basic level, GXS Trading Grid enables the exchange of electronic business transactions in a fast, secure and reliable fashion, mediating the standard and technology differences (e.g., EDI vs. XML or AS2 vs. FTP, etc.) between global trading partners and shielding customers from supply chain complexity. GXS' fastest growing product segment set is [GXS Expert Outsourcing](#), GXS' family of B2B Managed Services, which grew at a rate of 135 percent from 2005 to 2009.
